

DALLAS/FORT WORTH | DECEMBER 10TH

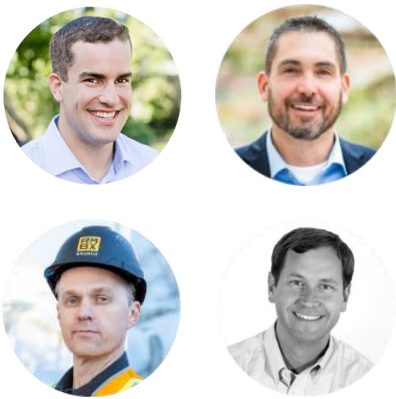

7:00-7:45am

Breakfast Buffet in the ConTech Showcase

SESSION 1

Opening Keynote
 | The Future Is
 Now: Technologies
 That Are
 Transforming and
 Disrupting Our
 Industry

7:45-8:55am

Speaker: James Benham of the ConTechCrew, Jeff Sample of eSUB, Rob McKinney of Rhumbix, and Josh Bone of CAISSON

Description: The Roadshow kicks off with James Benham of the ConTechCrew, Jeff Sample of eSUB, Rob McKinney of Rhumbix, and Josh Bone of CAISSON leading a discussion of the latest technology tools, innovations and trends impacting DFW's construction projects. Learn how technology is influencing workflows and improving job site safety, productivity and reducing costs for contractors in your region.

25 Minutes for Tech Demos with the ConTech Showcase Exhibitors

SESSION 2

Connected
 Jobsites: What To
 Do with All the
 Data?

9:20-10:15am

Speaker: Josh Bone, CAISSON

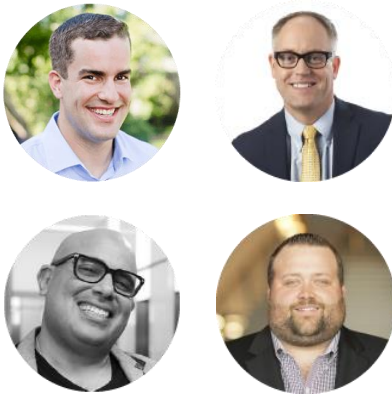

Description: It's 2019 and it's time to have a grownup conversation about your company's construction data and how to make sure it has a positive impact on your projects in the future. In this presentation, Josh Bone digs into how your project data should be captured, organized and managed to add project value and reduce risk exposure. The plethora of technologies in use means that most companies have more data than they know what to do with – let's discuss what to do with it.

25 Minutes for Tech Demos with the ConTech Showcase Exhibitors

SESSION 3

Gamification,
 Blockchain, and
 GIS: What You
 Need to Know

10:40-11:35am

Speaker: James Benham, The ConTechCrew Chief, joined by Industry Panelists

Description: This is not your typical panel. Moderator James Benham will be joined by industry experts who will help us demystify hot topics we hear thrown around today. These professionals, Darren Roos on Gamification, Bassem Hamdy on Blockchain and Todd Wynne on GIS, will break down the subjects which are often misunderstood, and help us see where these technologies are being utilized today on the jobsite. The ConTechCrew Chief as well as our industry panelists will show us how to answer the questions we're all asking, in ten minutes or less so get your notepad ready!

11:35-12:40pm

Lunch & Tech Demos in the ConTech Showcase

SESSION 4

"Constructuring":
 Where BIM,
 Manufacturing, and
 Construction Meet

12:40-1:35pm

Speaker: James Benham, The ConTechCrew

Description: What is Constructuring? James Benham, the ConTechCrew Chief, defines it as the convergence of BIM, manufacturing, and construction. And while the word is definitely made up, the need for this relationship is not - the union between BIM, manufacturing and construction is imperative to keep the AEC industry moving forward. But what is needed to get us there? Can technology help the cause? Learn why this partnership is so important and how you can help facilitate this culture at your company.

25 Minutes for Tech Demos with the ConTech Showcase Exhibitors

SESSION 5

Selecting and
 Securing Modern
 Technology

2:00-2:55pm

Speaker: Jeff Sample of eSUB, and Rob McKinney of Rhumbix

Description: In this talk, Jeff Sample and Rob McKinney walk us through the experiences that led them to develop their methodology for selecting and securing technology. In an industry where new software solutions can be found around every corner, how can a company decide what's the best fit for their unique needs? Is there a "right" software for a construction company? Rob and Jeff will teach the audience how to evaluate and maintain scale and security while choosing technology for your company.

3:00-4:00pm

Happy Hour & Giveaways in the ConTech Showcase
